LANGUAGE SKILLS

Professional Working Proficiency

- English - B2
- German - B2

TECHNICAL SKILLS

- **Development & Data**
JavaScript, HTML5, CSS3,
Tailwind CSS, SQL, Oracle PL/SQL,
SOQL, AMPscript, Jinja
- **APIs & Integration**
REST APIs, JSON, Web Services,
API Integration, Data Integration
System Integration, Postman
- **Data & Solution Engineering**
Data Analysis, Data Validation,
Data Quality, Solution Design,
As-Is & Gap Analysis, Database
Optimization, Real-Time Decisioning
- **AI & Automation**
Generative AI, AI-Assisted Data
Analysis, Workflow Automation
- **Bloomreach Engagement:**
Scenarios & Journey Orchestration,
Weblayers & Dynamic Content,
Segmentation & Personalization,
Analyses, Funnels & Reporting,
Metrics & Aggregates,
Jinja Templating,
Omnichannel Automation,
Customer Data,
Data-Driven Use Cases

BOHUSLAVA ROZSYPALOVÁ

Technical Consultant | Developer | Web, Data & Integration Solutions

SUMMARY

Technical Consultant and Developer with experience delivering enterprise IT solutions across international projects in banking, telecommunications, and pharmaceutical industries. Strong background in web development, database development, data-driven solutions, API and system integrations, combined with hands-on experience in enterprise platforms such as Bloomreach Engagement and Salesforce Marketing Cloud. I continuously develop my expertise in applied AI and integrate AI tools into my workflows and using them for data analysis and validation, content generation, and streamlining development processes to deliver work faster. Experienced in managing and delivering work across multiple projects in parallel. Alongside my IT career, I continue to pursue photography, web and graphic design, bringing a strong visual and creative perspective to digital products, UI/UX and customer-facing solutions.

EDUCATION

School of Arts, Jakobyho 15, Košice
2010 - 2014
Photography and Graphic Design

WORK EXPERIENCE

Adastra s.r.o, Mýtna 48, Bratislava
November 2024 - Present
Business Solution Consultant | Customer Data Platform Specialist

Orange Moldova | Yettel Bulgaria | A1 Croatia

- Implemented data-driven customer solutions in Bloomreach Engagement, using JavaScript, HTML/CSS, Jinja, REST APIs and JSON, including personalized Weblayers, dynamic content, forms, conditional UI logic and real-time customer interactions.
- Built and managed omnichannel customer journeys combining Email, Web, Push and In-App communication, customer segmentation, behavioral triggers and reusable content libraries.
- Integrated websites, mobile applications and external services with Bloomreach Engagement, including Bloomreach Mobile SDK, Tag Manager and Callback24 REST API, enabling real-time data collection, personalization and automated customer journeys.
- Analyzed customer, behavioral and campaign data using Bloomreach Analyses, Funnels, Reports, Trends, Retentions, Segmentations, Metrics and Aggregates to evaluate campaign performance, identify customer patterns and optimize targeting and personalization.
- Conducted as-is, gap and data-quality analyses across customer systems, databases and business processes; identified missing data, integration dependencies and required data structures, and proposed optimized technical and customer-data solutions.
- Led technical and business workshops with international client stakeholders, translating business requirements into technical specifications and coordinating implementation with marketing, development, data and integration teams.

- **Salesforce Marketing Cloud:**
Journey Builder & Automation Studio, Contact Builder & Data Extensions, Email Studio, Mobile Studio, AMPscript, Personalization & Dynamic Content, API & Web Service Integration, A/B Testing, Campaign Automation, Audience Segmentation

CRM: Orbit & Veeva Solutions

DEVELOPMENT & ENTERPRISE TOOLS:

- **Development**
Visual Studio Code, Git, GitHub, Sublime Text
- **Data & Analytics:**
Power BI, Hadoop, Qlik Sense
- **Enterprise:**
SAP, CRM, Orbit, Veeva, ON24, OneTrust Cookie Consent

DESIGN & CREATIVE TOOLS:

- **Adobe Creative Cloud:**
Photoshop, Illustrator, InDesign, Dreamweaver, Lightroom, Premiere Pro, After Effects, XD, Acrobat

Figma
Canva
Davinci Resolve

RELEVANT COURSES:

- Empire - German Language course (B2)

02 Slovakia | Real-Time Decisioning

- Supported the implementation and customization of an enterprise Real-Time Decisioning (RTDE) solution, translating client-specific business requirements into application logic, configuration and technical implementation requirements.
- Analyzed and supported the design of business entities, entity relationships and hierarchical data structures, including dependencies between subscriber-related entities and additional customer/product data domains, helping identify data-model limitations and required changes to support RTDE use cases.
- Worked with Jira and Confluence to manage requirements, user stories, technical documentation, action items and project delivery, ensuring alignment between business requirements, implementation scope and development activities.
- Designed and implemented a client-specific GUI customization, extending the standard RTDE application interface to meet functional, usability and visual requirements, while coordinating technical dependencies with backend and data-layer components.
- Supported SteerCo and project governance activities, monitoring delivery against agreed scope, maintaining project documentation and presentation materials, and communicating technical progress, risks and dependencies to project stakeholders.

Serbian Banking Project | Oracle PL/SQL & Data

- Developed SQL and Oracle PL/SQL solutions for reporting, data validation and control processes, including complex queries, reporting tables and validation structures.
- Performed data reconciliation, consistency checks and migration validation across relational datasets, identifying discrepancies, missing records and data-quality issues.

IBM Slovensko s.r.o, Aupark Tower, Protifašistických bojovníkov 11, Košice

August 2021 - October 2024

Salesforce Marketing Cloud Developer & Consultant

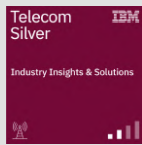

- Implemented, optimized and automated multichannel customer communications and marketing campaigns in Salesforce Marketing Cloud (SFMC), working with Journey Builder, Automation Studio, Email Studio and Content Builder to deliver personalized and automated customer journeys.
- Designed and developed responsive email templates, landing pages, microsites and dynamic content, including reusable master templates or component-based designs, using HTML, CSS, AMPscript and Figma.
- Built and maintained Data Extensions, audience segments, personalization rules and data-selection logic supporting targeted communications and automated campaign execution.
- Integrated Salesforce Marketing Cloud with external systems and web services, supporting automated data flows, synchronization and data consistency across connected platforms and CRM environments.

DISCOVERY

ENGAGEMENT

- SFMC Consultant
- SFMC Administrator
- SFMC Email Specialist
- Bloomreach - Jinja Unlocked
- Bloomreach - Jinja Jumpstart
- Bloomreach - Data Hub
- IBM Industry Certifications

DRIVER LICENSE:

CORE STRENGTHS:

- Proactive
- Organizational skills
- Adaptability
- Analytical Thinking
- Stakeholder Communication
- Cross-functional Collaboration
- Creativity
- Attention to detail

Photography, Graphic & Web Design
15+ years

- Used Salesforce Inspector for data inspection, query validation, troubleshooting and verification of Salesforce records and data structures during campaign development and integration activities.
- Implemented and configured Google Analytics and OneTrust Cookie Consent Management across developed landing pages and microsites.
- Managed users, client accounts, roles, permissions and data-access rights in Orbit CRM, supporting CRM administration and controlled access to customer and campaign-related data.
- Analyzed campaign performance, customer engagement and behavioral data to identify optimization opportunities and improve targeting, personalization and communication effectiveness.

M-Victory s.r.o., Gogoľova 1714/2, Košice

July 2020 - July 2021 (One year project)

Web Designer | Website Design Creator

- Designed the visual concept and UI of the website, including page layouts, visual elements, icons and graphics, primarily using Adobe Illustrator, InDesign, XD and other Adobe tools.
- Created responsive and brand-aligned website designs with a strong focus on UI/UX, intuitive navigation, typography, color and usability.
- Translated approved visual designs into implementation requirements and collaborated closely with development and QA teams throughout the implementation, testing and refinement of the website.
- Reviewed implemented components against the original designs and ensure visual consistency, usability and alignment with technical requirements.

LafargeHolcim EBS s.r.o., Hlavná 69/111, Košice

December 2016 - July 2020

Accounts Payable Coordinator | German & English

- Processed and verified supplier invoices in SAP, ensuring accurate accounting data and compliance with internal financial procedures.
- Coordinated a small Accounts Payable team supporting the Southern Germany region, including workload distribution, issue resolution and monitoring of daily processing activities.
- Managed vendor communication and resolved invoice-related queries and payment issues in German and English.
- Held weekly coordination meetings with internal colleagues in Germany to review operational priorities, open items, workload and process-related topics.

Otto WorkForce b.v., Netherland

August 2014 - September 2016

Warehouse Operator | G-Star RAW Designer Assistant

- Monitored stock levels and supported warehouse operations, ensuring accurate inventory tracking and replenishment. Maintained order records and communicated inventory issues or shortages to relevant departments.
