LANGUAGE SKILLS

English - B2
German - B2

TECHNICAL SKILLS

Development & Data

JavaScript (ES6+), Node.js, HTML5, CSS3, SQL, Oracle PL/SQL, SOQL, AMPscript, Jinja2, JSON, XML, Tailwind CSS, Regex, Git / GitHub, Responsive Development, DOM Manipulation

APIs & Integration

REST APIs, SOAP / Web Services, Custom Webhooks, Postman, JSON & Payload Mapping, API Authentication (Bearer, API, Key, Basic Auth), API Testing & Debugging, Real-Time Data Collection, System & Data Integration, Mobile SDK Integration, Error Handling & Retry Logic

Data & Solution Engineering

Data Analysis, Data Validation, Data Quality Management, Data Modeling (conceptual & logical, entity-relationship), Customer Data Modeling, Data Mapping & Transformation, Data Reconciliation, Migration Validation, ETL & Scheduled Data Automation, Database Optimization, KPI & Metric Definition Reporting & Dashboarding

BOHUSLAVA ROZSYPALOVÁ

Technical Consultant | Developer | Web design, Data & Integration Solutions

SUMMARY

Technical Consultant and Developer with experience delivering enterprise IT solutions across international projects in banking, telecommunications, and pharmaceutical industries. Strong background in web development, database development, data-driven solutions, API and system integrations, combined with hands-on experience in enterprise platforms. I continuously develop my expertise in applied AI and integrate AI tools into my workflows and using them for data analysis and validation, content generation, and streamlining development processes to deliver work faster.

Alongside my IT career, I continue to pursue web and graphic design, bringing a strong visual and creative perspective to digital products, UI/UX and customer-facing solutions.

EDUCATION

School of Arts, Jakobyho 15, Košice

2010 - 2014

Photography and Graphic Design

WORK EXPERIENCE

Adastra s.r.o, Mýtna 48, Bratislava

November 2024 - Present

Business Solution Consultant | Customer Data Platform Specialist

Orange Moldova | Yettel Bulgaria | A1 Croatia

- Design and implement data-driven customer solutions in Bloomreach Engagement — personalized weblayers, dynamic content, forms and real-time interactions (JavaScript, HTML/CSS, Jinja, REST API/JSON).
- Build and maintain omnichannel customer journeys across Email, Web, Push and In-App, including segmentation, behavioral triggers and reusable content libraries.
- Integrate websites, mobile applications and external services with the CDP via REST APIs, custom webhooks, Bloomreach Mobile SDK and Tag Manager, enabling real-time data collection and automated customer journeys.
- Build custom, reusable email, weblayer and push notification templates from scratch including responsive brand-aligned and dynamically personalized variants.
- Conduct as-is, gap and data-quality analyses across client customer systems; identify missing data, integration dependencies and the required target data model.
- Analyze campaign and customer behavior data (funnels, retention, segmentations, metrics, aggregates) and refine targeting and personalization based on the findings.
- Lead technical and business workshops with client stakeholders, translating business requirements into technical specifications and coordinating marketing, development and data teams.

AI & Automation

Generative AI (LLM-Assisted Delivery), Prompt Engineering, AI-Assisted Development & Debugging, AI-Assisted Data Analysis & Validation, Workflow Automation, AI Tool Evaluation, AI-Generated Content & Documentation

Business Analysis & Delivery

Agile / Scrum, Requirements Engineering & Elicitation, Business Process Analysis, As-Is & Gap Analysis, Technical Specification, Data Flow Modeling, Use Case & User Story Definition, Acceptance Criteria & UAT Support, Impact & Dependency Analysis, Process & Solution Documentation, Workshop Facilitation, Multi-Project Delivery

DEVELOPMENT & ENTERPRISE TOOLS:

Development

Visual Studio Code, Git, GitHub, Sublime Text, Brackets, Sublime Text, Postman, Webhook.site, Chrome DevTools

Data & Analytics

Power BI, Hadoop, Qlik Sense, Excel (advanced), Salesforce Inspector, Google Analytics

AI Tools

ChatGPT, Claude, Gemini, Perplexity, Microsoft Copilot, Custom GPTs

APIs & Testing Tools

Postman, Webhook.site, cURL, Swagger / OpenAPI UI, JSON Formatter & Validators, Base64 / JWT decoders

Enterprise & CRM

SAP, CRM, Orbit, Veeva, ON24, OneTrust Cookie Consent

Delivery & Collaboration

Jira, Confluence, Miro, Microsoft Visio, Microsoft Teams, SharePoint

02 Slovakia | Real-Time Decisioning

- Implemented an enterprise Real-Time Decisioning platform, translating client business rules into application logic/ configuration.
- Analyzed the data model — business entities, relationships and hierarchies across subscriber, customer and product domains and identified model limitations blocking RTDE use cases.
- Managed requirements, user stories and technical documentation keeping business scope and development aligned.
- Designed and implemented a client-specific GUI customization on top of the standard RTDE interface, coordinating backend and data-layer dependencies.
- Reported delivery progress, risks and dependencies at SteerCo and project governance level.

Serbian Banking Project | Oracle PL/SQL & Data

- Developed SQL solutions for reporting, data validation and control processes, including complex queries, reporting tables and validation structures.
- Performed data reconciliation, consistency checks and migration validation across relational datasets, identifying discrepancies, missing records and data-quality issues.

Technologies & Skills Applied:

- Oracle PL/SQL · Advanced SQL · JavaScript · HTML5/CSS3 · Jinja2 ·
- JSON · REST APIs & Custom Webhooks · API Authentication · Postman
- Bloomreach Mobile SDK & Tag Manager · Real-Time Decisioning
- Customer & Relational Data Modeling · Data Reconciliation
- Migration Validation · Data Quality Controls · As-Is & Gap Analysis
- Functional & Technical Specification · Campaign & Behavioral Analysis
- Custom Template Development · Responsive Design · Figma
- Adobe Creative Cloud (Photoshop, Illustrator, InDesign) · Agile
- Jira · Confluence · Git · Generative AI for Data Analysis & Development

IBM Slovensko s.r.o, Aupark Tower, Protifašistických bojovníkov 11, Košice

August 2021 - October 2024

Salesforce Marketing Cloud Developer & Consultant

- Implemented, optimized and automated multichannel customer communications and marketing campaigns in Salesforce Marketing Cloud
- Designed and developed responsive email templates, landing pages, microsites and dynamic content, including reusable master templates and component-based designs.
- Built and maintained Data Extensions, audience segments, personalization rules and data-selection logic supporting targeted communications and automated campaign execution.
- Integrated SFMC with external systems and web services; automated data flows, synchronization and data consistency with CRM environments.

DESIGN & CREATIVE TOOLS:

Adobe Creative Cloud:

Photoshop, Illustrator, InDesign, Dreamweaver, Lightroom, Premiere Pro, After Effects, XD, Acrobat

Figma
Canva
Davinci Resolve

RELEVANT COURSES:

Empire - German Language course (B2)

DISCOVERY

ENGAGEMENT

- SFMC Administrator
- SFMC Email Specialist

- Validated data and resolved incidents using Salesforce Inspector and SOQL; implemented Google Analytics and OneTrust Cookie Consent on delivered pages.
- Managed users, client accounts, roles, permissions and data-access rights in Orbit CRM, supporting CRM administration and controlled access to customer and campaign-related data.
- Analyzed campaign performance, customer engagement and behavioral data to identify optimization opportunities and improve targeting, personalization and communication effectiveness.

Technologies & Skills Applied:

- Salesforce Marketing Cloud · AMPscript · SQL · SOQL · HTML/CSS
- JavaScript · TailwindCSS · Data Extensions & Data Modeling
- Audience Segmentation · Personalization & Dynamic Content
- Responsive Email & Landing Page Development · A/B Testing
- Campaign Automation · REST & SOAP API Integration
- Salesforce Inspector · Orbit & Veeva CRM Administration
- Google Analytics · OneTrust / GDPR Consent Management
- Campaign Performance Analysis · Figma · Git / GitHub

M-Victory s.r.o., Gogoľova 1714/2, Košice

July 2020 - July 2021 (One year project)

Web Designer | Website Design Creator

- Designed the visual concept and UI of the website, including page layouts, visual elements, icons and graphics, primarily using Adobe Illustrator, InDesign, XD and other Adobe tools.
- Created responsive and brand-aligned website designs with a strong focus on UI/UX, intuitive navigation, typography, color and usability.
- Collaborated closely with development and QA teams throughout the implementation, testing and refinement of the website.
- Reviewed implemented components against the original designs and ensure visual consistency, usability and alignment with technical requirements

Technologies & Skills Applied:

- Web Design · UI/UX Design · Visual Concept Development
- Wireframing & Mockups · Responsive & Mobile-First Design
- Typography · Color Theory · Visual Hierarchy · User Flows
- Custom Graphic Design · Brand Consistency · Form Design
- Information Architecture · Navigation Design · Usability Principles
- Usability & Accessibility Basics · Landing Page Design
- Image Editing & Web Asset Optimization · Figma
- Adobe Illustrator, InDesign, Photoshop, XD, Dreamweaver
- Design-to-Development Handover · Visual Consistency Review
- Collaboration with Development & QA · Client Presentation

DRIVER LICENSE:

- B, AM, A2, A

CORE STRENGTHS:

- Proactive
- Organizational skills
- Adaptability
- Analytical Thinking
- Stakeholder Communication
- Cross-functional Collaboration
- Creativity
- Attention to detail

LafargeHolcim EBS s.r.o., Hlavná 69/111, Košice

December 2016 - July 2020

Accounts Payable Coordinator | German & English

- Processed and verified supplier invoices in SAP, ensuring accurate accounting data and compliance with internal financial procedures.
- Coordinated a small Accounts Payable team supporting the Southern Germany region, including workload distribution, issue resolution and monitoring of daily processing activities.
- Managed vendor communication and resolved invoice-related queries and payment issues in German and English.
- Held weekly coordination meetings with internal colleagues in Germany to review operational priorities, open items, workload and process-related topics.

Otto WorkForce b.v., Netherland

August 2014 - September 2016

Warehouse Operator | G-Star RAW Designer Assistant

- Monitored stock levels and supported warehouse operations, ensuring accurate inventory tracking and replenishment. Maintained order records and communicated inventory issues or shortages to relevant departments.
